

# CLAIM EVENT FLOW - OVERVIEW

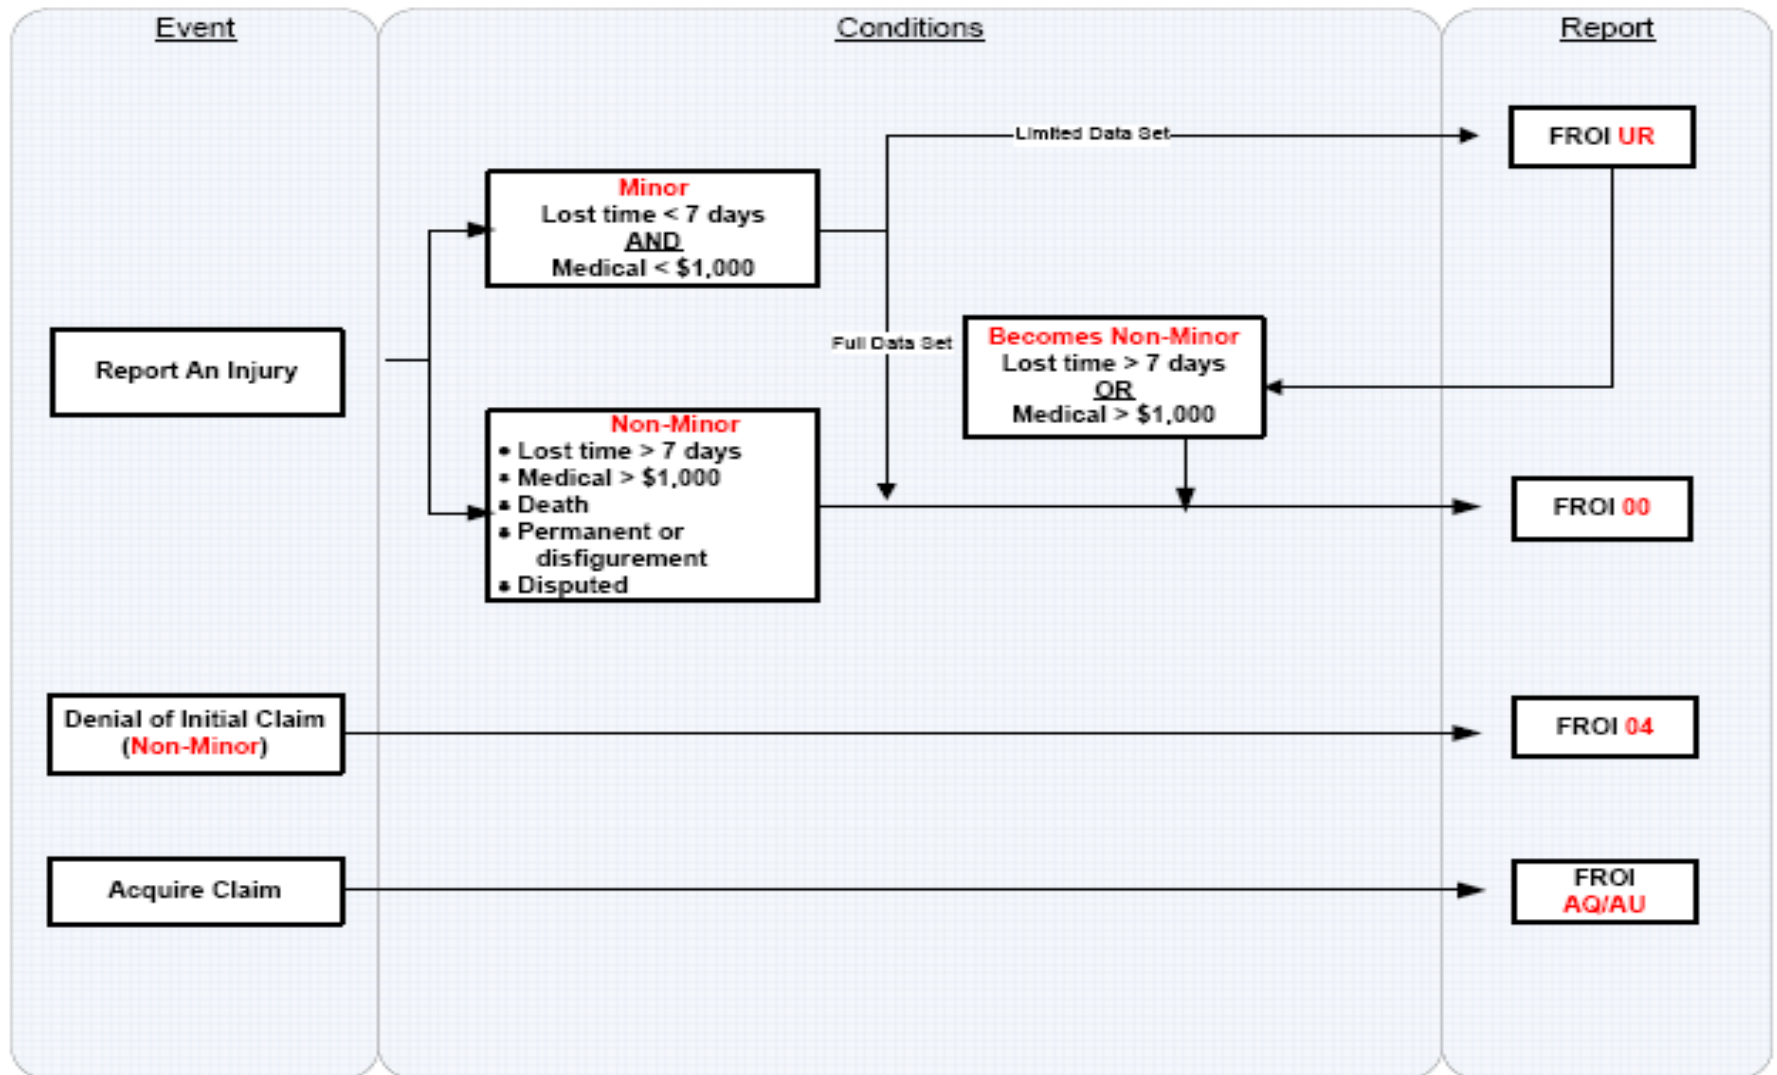

Sourced from IAIABC Claims release 3 standards:  
Transaction Sequencing

## Claim Event Flow

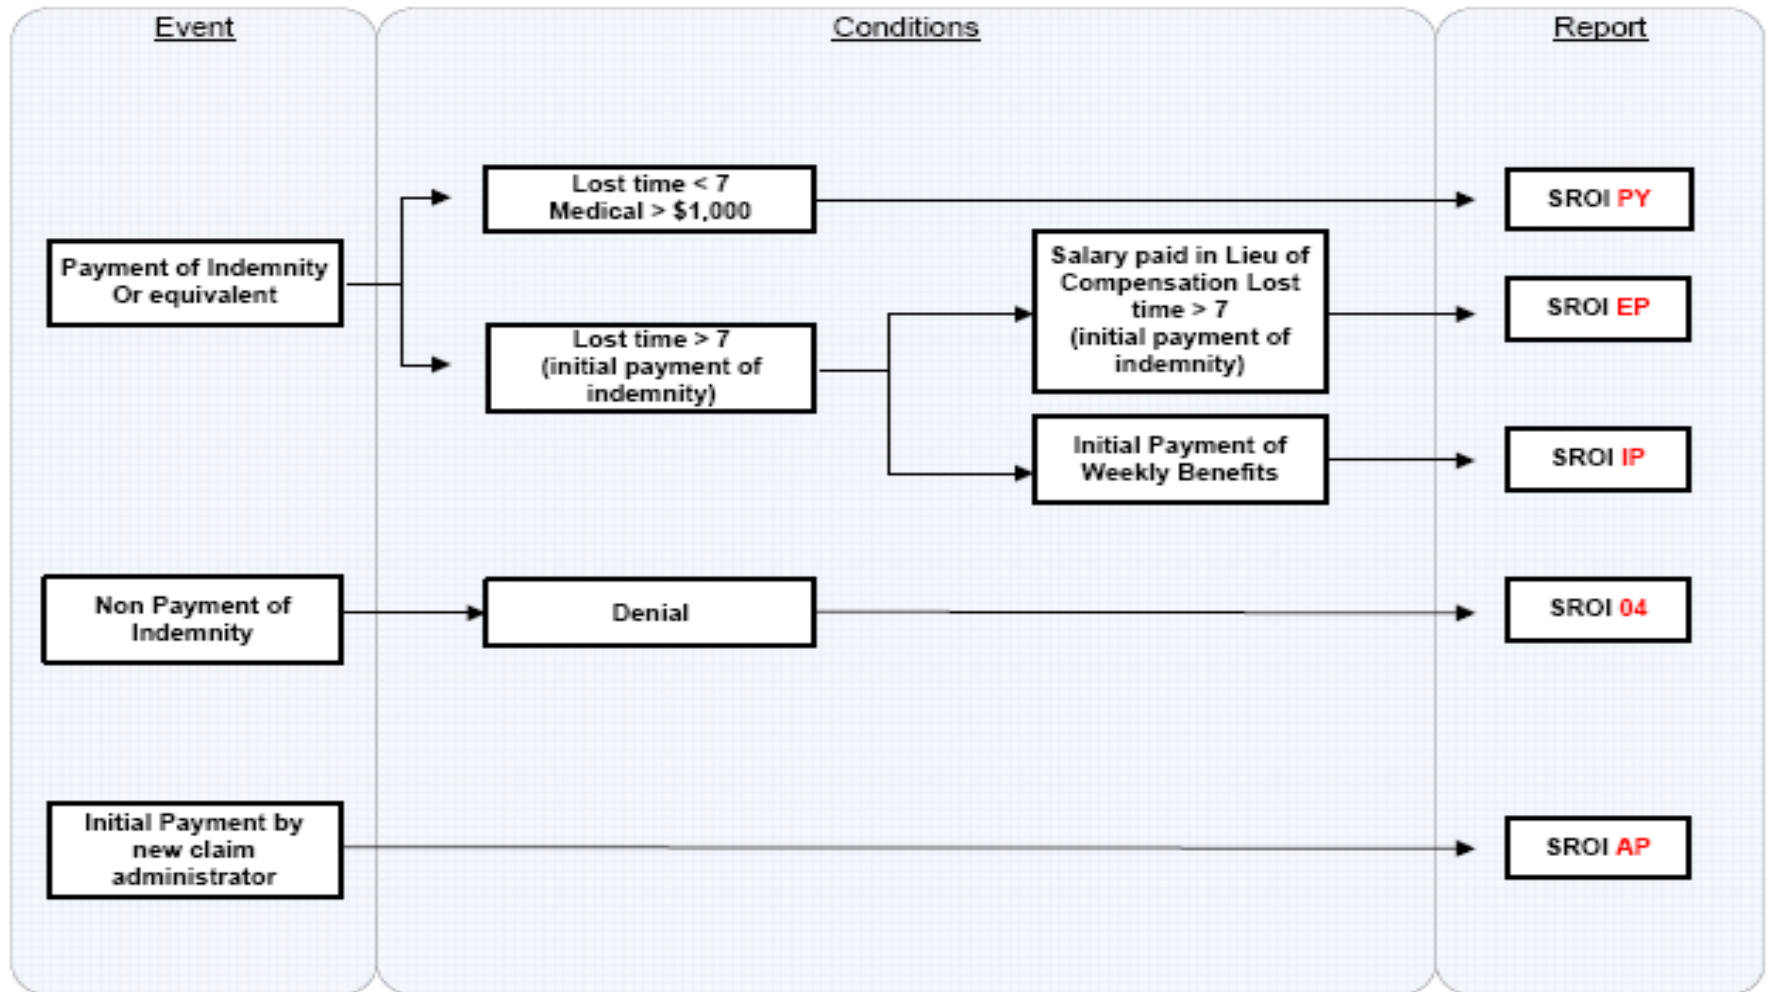

\* Please supply most recent data when reporting. For changes to "master" data, use the FROI 02 "Change" request

## Group 1: Establish or Acquire Claim

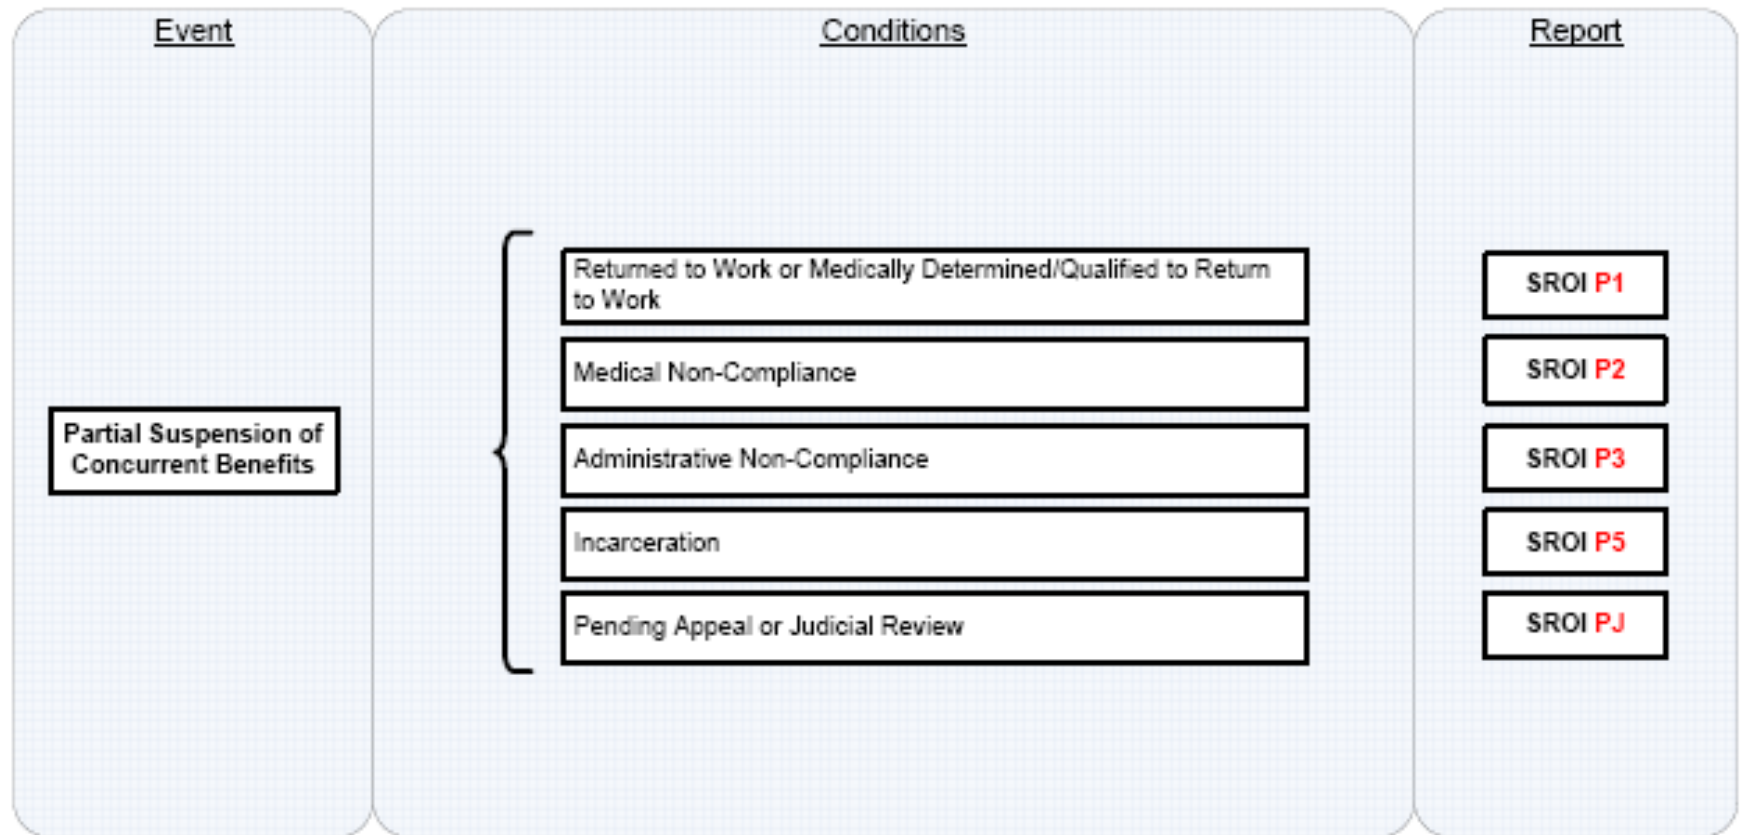

## Group 2: Initial Payment or Equivalent

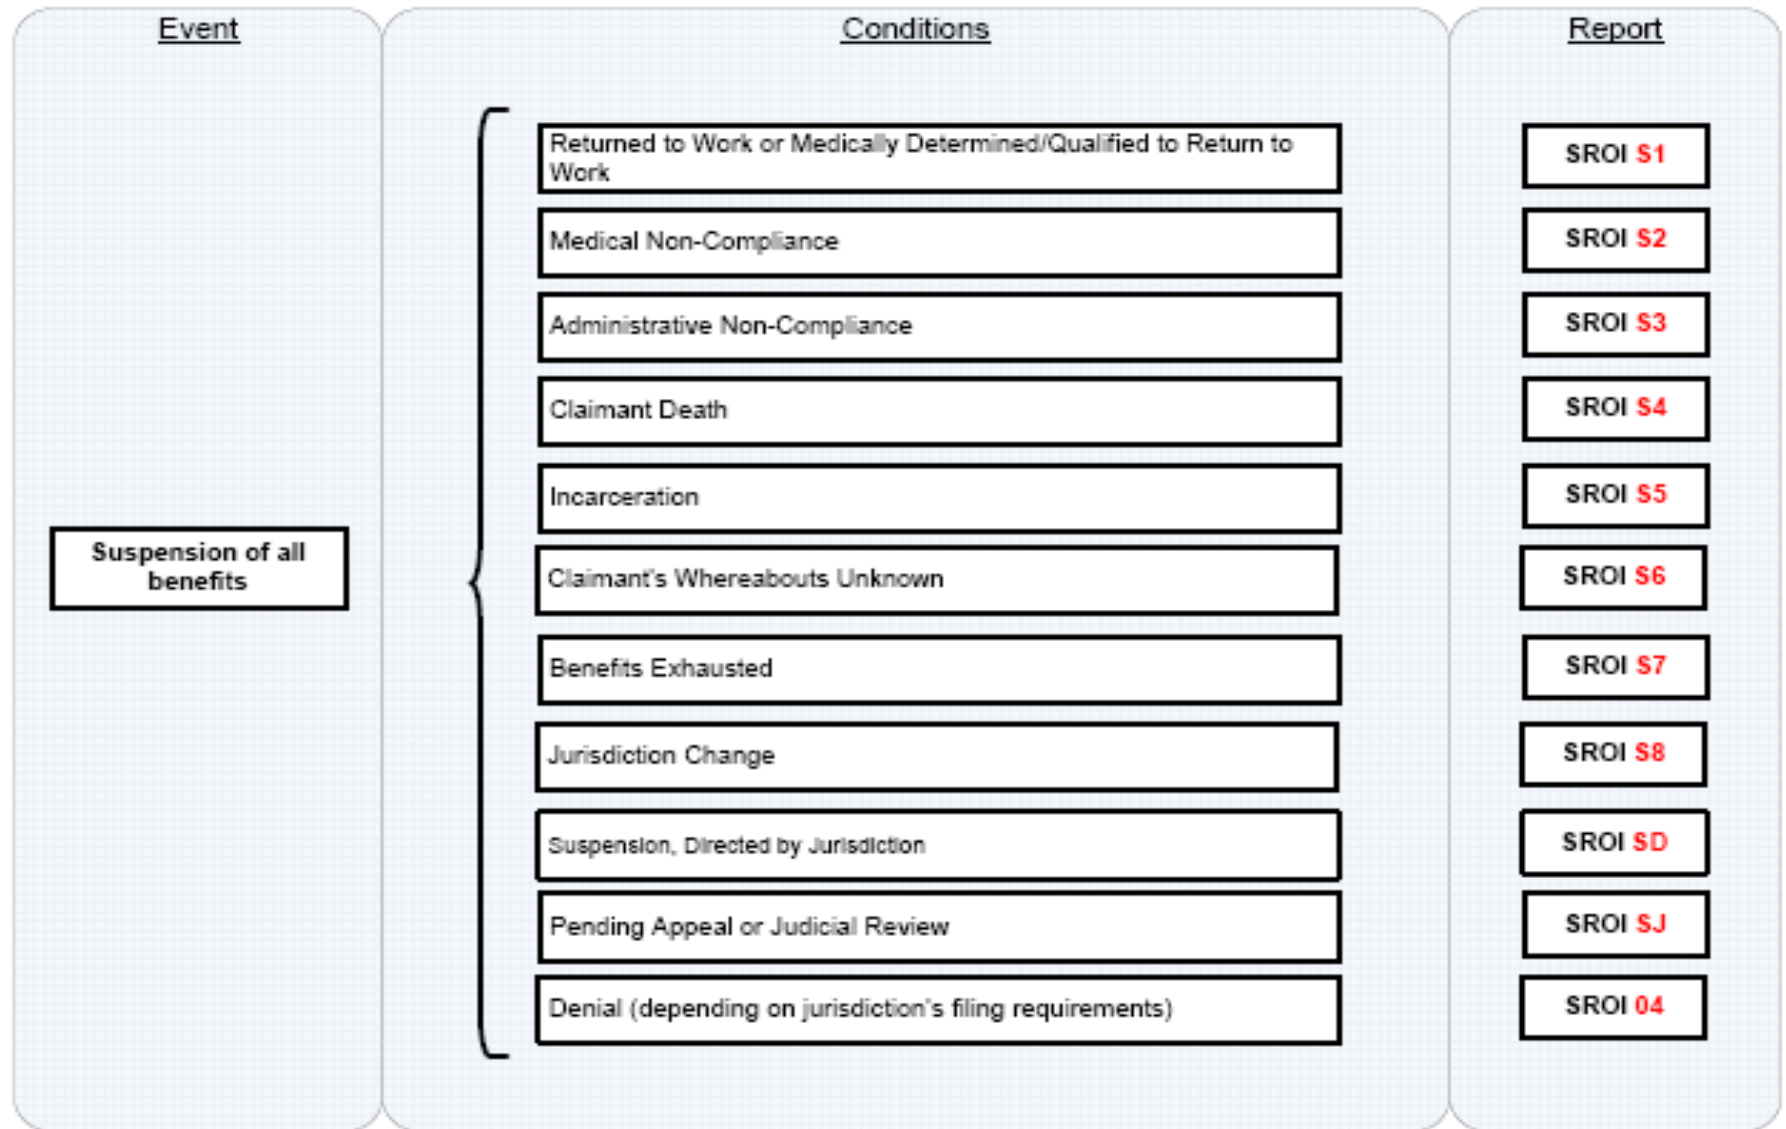

## Group 3: Partial Suspension

The suspension of partial benefits may occur numerous times during the life of the claim for concurrent benefits. In Virginia, only partial and permanent partial benefits may be paid concurrently. A "partial suspension" would report a suspension of the temporary benefit and the continuance of the permanent benefit. Must follow a EP, IP or AP

## Group 4: Suspension of all Indemnity Benefits

## CLAIM EVENT FLOW – GROUP 5 AND 6

---

Events 5, and 6 can occur multiple times during the life of the claim. However, once Event 5 occurs, Event 6 must occur before 5 can occur again. Note: Jurisdiction must be able to recognize previously reported starting and stopping of benefits.

### Group 5: Resumption of Benefits

### Group 6: Suspension of Resumed Benefits

Refer to Group 4: Suspension of Benefits

## Group 7 - 10: File Anytime After First Report
